NEW NATCHAUG SCHOOL.

Advocated by School Committee—Town Be Asked to Vote Upon Such Recommendation at Special Meeting.

The electors of the town of Windham will be asked, at the next special town meeting to be called, to erect a new grammar school building to take the place of the present Natchaug school on Jackson street, and make a sufficient appropriation for that purpose. This is a result of instructions received by Chairman F. E. Guild of the Town school committee at the committee's meeting in the rooms of the board of selectmen Wednesday evening, to request the selectmen to have such a clause inserted in the warning for the next special town meeting.

This action was decided upon after Thomas J. Kelley informed the members of the committee that it was a question in his mind whether the town should keep on effecting repairs to the old Natchaug school building. C. C. Case, a member of the committee, had just reported the necessity for the installation of a new boiler at the school to take the place of the one doing service there for the past 37 years, which would also mean expense to replace the entire building. Committeeman Kelley said the Natchaug school building was the worst in the city. The state had erected a fine structure on Windham street and St. Joseph's parish had erected a fine parochial school without any expense to the town and he believed that it was about time for the town itself to build a new grammar school. The Natchaug school site is a fine one and a building can be erected in front of the present old building and then the latter may be torn down and the school children have an excellent playground in the rear of the new school. He said he felt that the town was ready to build such a building and that the question should be brought before the electors as soon as possible.

Chairman Guild was also instructed to appoint a committee of three to investigate what sort of a building the town should have and the approximate amount of money that would be required for the purpose. This committee was appointed: Thomas J. Kelley, C. C. Case and Thomas Dion. The committee is to be prepared to report at the special town meeting.

The resignation of Miss Alice I. Sanford, teacher of Latin at the Windham high school, to become effective January 24, was accepted. The school committee recommended that the town school committee authorize Principal Egbert A. Case of the W. H. S. to investigate suitable candidates for the vacancy and engage a successor to Miss Sanford.

Chairman Dean of the teachers' committee stated that Principal Case had one applicant in mind, Miss White of Adams, Mass., who has been teaching for seven years and was highly recommended. George S. Elliott, another member of the town school committee, stated that Miss White was from his home town and he knew that she was a very fine teacher.

Mr. Kelley moved that Principal Case be authorized and instructed to investigate suitable teachers to fill the vacancy of Miss Sanford at a salary not to exceed \$900 and make report and recommendation to the town school committee at a special meeting to be called by a chairman for the purpose. The motion was carried. The matter of admitting out of town pupils into the freshman class of the W. H. S. on certificates from school superiors without examination was taken up at the request of Principal Case. He strongly favored its adoption and it was voted that hereafter pupils be allowed to enter upon such certificates.

Woman Wandering on Railroad Tracks

About 11 o'clock the attention of the police was called to the actions of a woman who had been roaming about the railroad tracks for a couple of hours during the earlier evening. Just before the arrival of the 9:50 train from Boston the woman was in the vicinity of the Union street crossing and as the train whistled past that point she barely escaped being struck by the train. She continued her wanderings until the police were notified and after quite a time she was induced to go to her home. She would not stay there, however, but came out again and wandered around the tracks. She was again induced to go home and remained there until about 2 o'clock Thursday morning, when she left again and the police were compelled to take her to the station house and place her in the hospital room. A physician was called and attended her and again Thursday morning the physician was called and found the woman to be in a condition that permitted her return to her home. It is believed that some family trouble, that is fancied, caused her to become temporarily mentally unbalanced. A complaint of her actions was first made to the police by another tenant in the house.
